

DIGITAL PRINTABLE AND PLOTTABLE WHITE TEXTILE PRINTING FILM, DEVELOPED SPECIFICALLY FOR SUBLIMATED POLYESTER.

Unlike any other product, CAD-COLOR® Sublistop is a full color digital polyurethane film that features a barrier layer, which prevents dye sublimation from damaging your designs. Once applied, Sublistop provides a barrier preventing dye migration making it perfect for athletic and sporting apparel, in particular, sublimated football shirts. It should be noted that because of this layer, the material will have a limited stretch capability.

AVAILABLE IN

50 cm x 25 m rolls

RECOMMENDED FABRICS

- 100% sublimated polyester*
- Polyester-cotton blends
- Softshell

* Test before application!

CUTTING NOTES

You should always test cut prior to any production run. Remember cutter settings will need to be adjusted as your blade ages. Cutting too deep will result in weeding or printing difficulties.

APPLICATION INSTRUCTIONS

- Temperature: 130°C
- Time: 10 sec. .
- Pressure: medium
- (#4-6 on Hotronix®)
- Peel: cold

ACCESSORIES RECOMMENDED

- CAD-COLOR® Magic Mask Plus
